Make Your Counter Kit Portable! With <u>Battery Accessory kits</u> Contact sales@tiptappay.com to learn more. To be ordered separately.						

- Safety Precautions**
- 1). Please only use the components supplied by tiptap to power your terminals and charge your battery.
 - 2). If a cable is frayed or worn, please do not use it. Contact support@tiptappay.com and we will replace it.

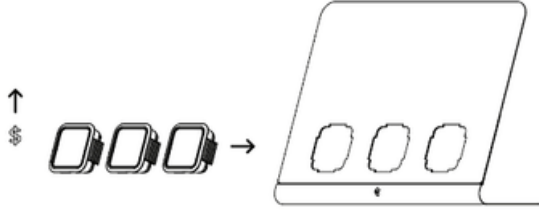

Installation Steps

- 1

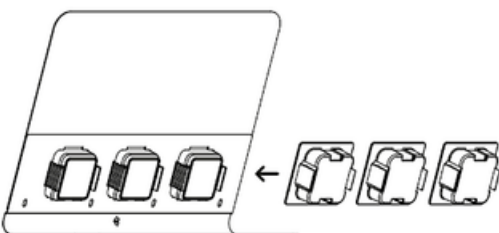

Place printed signage on the front side of the base and lineup at the cutout hole.

- 2

Place terminal in the front gasket and put it through the front of the signage and base. Please make sure the terminal denomination is right side up.

- 3

Connect the back gasket with the front gasket until snug. Repeat steps 2 and 3 until all terminals are in place.

- 4

Connect the USB-C to the device and the USB-A cable to the wall plug.
