User Guide

Start Collecting Right Away!

Counter Kit

Getting started is easy:

1. Plug the USB-C end of the 10 ft cable into the port on your terminal and the USB-A end into the wall plug.
2. Plug the wall plug into a standard wall outlet.

Make Your Mini Kit Portable!

Clip & Lanyard hardware

Plug your terminal into a fully charged battery and your ready to go!

To charge the battery:

1. Plug the USB-C end of the 1 ft cable into the battery and the USB-A end into the wall plug.
2. Plug the wall plug into a standard wall outlet.

Battery Management

- **Battery Level:** Check the LED indicator to see the remaining charge.
- **Charge Time:** 2-3 hours for a full charge.
- **Runtime:** Up to 10 hours (After 50%, the battery drops to 0).
- **Power Button:**
 - The battery automatically turns off within 30 seconds if its not connected to a terminal or power source. When connected to a terminal or power source, it will remain on.
 - You can manually turn the battery off at any time by pressing the button twice - even while plugged in.
